PROFESSIONAL PROFILE

Senior UI/UX Front End Architect with 6+ years specializing in modern React 18, TypeScript, and design systems. Expert bridge between product design (Figma, token architecture, WCAG AAA accessibility) and production web applications (Next.js, TailwindCSS, micro-frontends). Led core design systems utilized by 45+ enterprise application engineers.

CORE COMPETENCIES & TECHNOLOGIES

React 18

TypeScript

TailwindCSS

Component Libraries

PROFESSIONAL EXPERIENCE

Lead Frontend & Design Systems Architect

2022 – Present

[Veloce Systems](#) • [San Francisco, CA](#)

- Architected multi-tenant React + TypeScript component library used by 12 product teams, reducing UI defect rates by 68%.
- Synchronized Figma design tokens directly into TailwindCSS configuration via automated CI pipeline.
- Conducted user testing and revamped client onboarding flow, driving an 18% improvement in conversion.
- Authored comprehensive Storybook documentation, interactive component guidelines, and accessibility audits.

Senior Frontend Engineer (UI/UX Specialist)

2019 – 2022

[Aura Labs](#) • [Seattle, WA](#)

- Designed and built customer-facing SaaS dashboards with React, Next.js, and CSS Modules.
- Partnered directly with principal product designers to implement micro-animations and responsive layouts.
- Optimized client-side bundle size by 35% using lazy-loading and dynamic imports.

EDUCATION

B.S. in Human-Computer Interaction & Computer Science — University of Washington (2019)
