

Rohan Mehta

Frontend Web Developer (2.5 Years Experience)

Bangalore, India • rohan.mehta@devmail.com • +91 98450 11223 • rohanmehta.tech

CAREER OBJECTIVE

Enthusiastic web developer with 2.5 years experience building responsive web pages using HTML5, CSS3, JavaScript, and React. Eager to advance frontend skills in TypeScript and design systems while contributing to scalable customer-facing applications.

TECHNICAL SKILLS

Languages: JavaScript (ES6), HTML5, CSS3, basic TypeScript

Frameworks & Tools: React.js, Bootstrap 5, basic TailwindCSS, Git, NPM, Webpack

EXPERIENCE

Junior Frontend Developer | PixelKraft Studios (June 2022 – Present)

- Built 15+ marketing landing pages and responsive client portals using React and CSS3.
- Collaborated with design team to convert basic Figma wireframes into functional web pages.
- Maintained cross-browser compatibility and optimized mobile responsiveness across iOS and Android.

Web Development Intern | Infotech Labs (Jan 2022 – June 2022)

- Assisted senior developers in styling components using Bootstrap and vanilla CSS.
- Resolved UI bugs and improved site accessibility and page load speeds.

EDUCATION

Bachelor of Computer Applications (BCA) — Bangalore University (2022)
